

Beyond!

WHITEPAPER

Beyond (BYD) Token

"A Meme Coin Revolution with Real Fundamentals"

Executive Summary (Executive Summary)

Beyond is a meme token that is also part of the gaming ecosystem to generate income. Built on the BEP20 network, Beyond has a total initial supply of 54 billion tokens. Apart from carrying a future humor philosophy, Beyond aims to become a major asset in play-to-earn (P2E) games, purchasing in-game items, as well as an advertising publishing platform in the future.

BEYOND ADVERTISING

Problem Background

Many meme coins lack business development fundamentals, making them vulnerable to inflation or stagnation. Beyond is here to solve this problem by offering a strong and sustainable play-to-earn based business unit.

Solutions Offered

Beyond aims to revolutionize the crypto industry by:

- Token liquidity must be high.
- Must have clear underlying assets. Establishing meme coin fundamentals through P2E business units and advertising publishers.
- Building a solid community to support stable token distribution.
- Provides a gaming experience that allows users to earn tokens, purchase items, and utilize advertising services directly.

Chart Solutions Offered

Token Details

Token Name	: Beyond
Symbol	: BYD
Network	: BEP20
Total Supply	: 54 billion tokens
Presale	: 27 billion tokens
Presale Price	: \$0.00018/token
Token Allocation	:
	50% Presale
	10% Staking
	20% Community
	20% Business Developer

Sales Mechanism:

Users purchase tokens on the official website and receive tokens automatically in their wallet. Tokens can be immediately staked during the presale period.

Benefits for Users

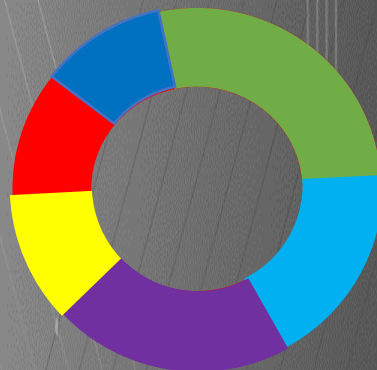

- Opportunity to buy tokens at low prices during presale.
- Potential profits once the token is listed on DEX.
- Access to gaming platforms and advertising publishing services.

Token Economic Model (Tokenomics)

To ensure healthy token distribution, Beyond limits purchases per wallet. The funds collected will be allocated as follows:

- 30% Liquidity
- 20% Monetary Liquidity
- 20% Business Projects
- 10% Operational
- 10% Business Development
- 10% Community Activities

1. 30% Liquidity

We will allocate 30% of funds for liquidity.

2. 20% Monetary

20% of funds are used for monetary activities, strengthening price stability as selling and staking flows increase.

3. 20% Business Project

The final 20% is allocated to gaming and advertising platform projects.

4. 10% Development

10% of our funds are allocated for product and service development.

5. 10% Operational

Another 10% is allocated for operations so that business projects can run smoothly.

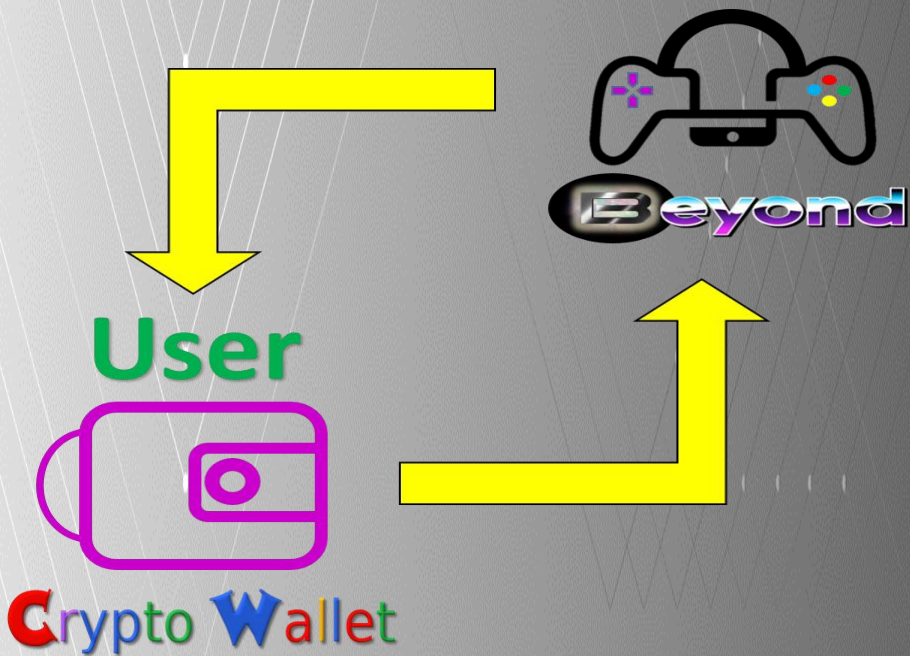

6. 10% Community

We dedicate 10% of funds to community development because the community is also very influential on crypto trends.

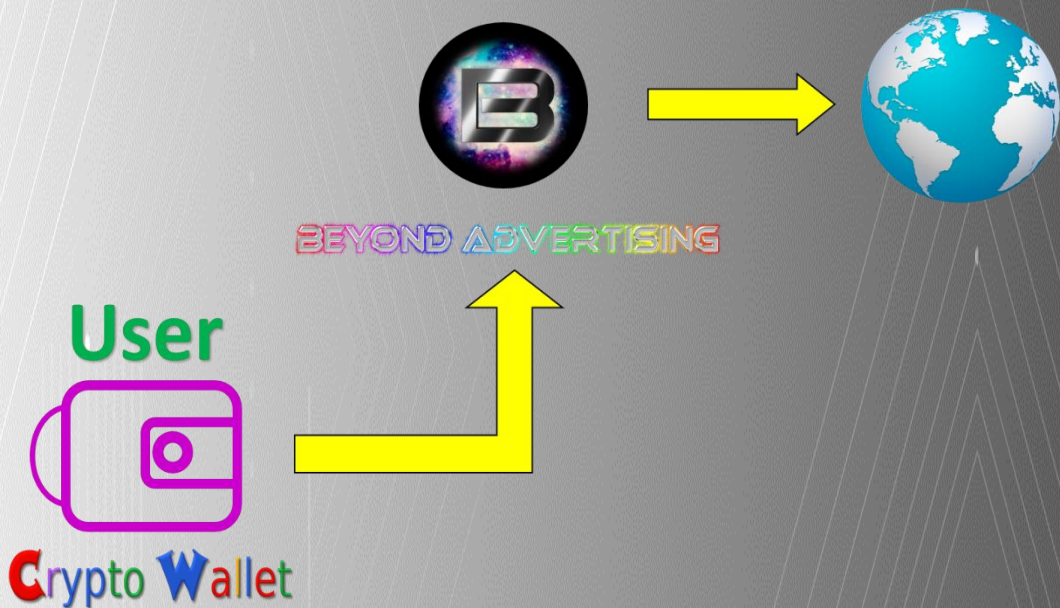

Technology and Architecture

Beyond will develop:

Play-to-earn based 3D game, allows login using crypto wallet.

Beyond token wallet-based advertising publishing media to make transactions easier.

Roadmap

- ❖ **Presale & Token Distribution:**
- ❖ Tokens are sent directly to the user's wallet after purchase.
- ❖ **Staking:**
- ❖ Stake tokens while waiting for token listing on Dex.
- ❖ **Listing on DEX:**
- ❖ Tokens will be listed the day after the presale ends.
- ❖ **Project Development:**
- ❖ Development of P2E gaming platforms and advertising publishing media begins.
- ❖ **Listing on CEX:**
- ❖ The token will be expanded to global markets.
- ❖ **Community & Innovation:**
- ❖ Build a community through surveys, quizzes, and rewards.
- ❖ **Go To Beyond:**
- ❖ Our real goal is to establish a Conglomerate together.

Risks and Mitigation

Market Issues: Beyond will monitor market trends closely.

Crypto Regulations: The project will conform to local regulations in various countries.

Conclusion

Beyond is here to revolutionize the view of meme coins by building strong business fundamentals. Through technological innovation, a solid community, and a focus on digital development, Beyond aims to be a pioneer in the future of the crypto industry.
